

The logo for the OMC Maintenance 2017 event. It features a large, stylized 'O' on the left and a large, stylized 'C' on the right. In the center, the word 'MAINTENANCE' is written in a bold, sans-serif font, with the 'M' in red and the rest in black. Below 'MAINTENANCE', the year '2017' is written in a smaller, red, sans-serif font. The entire central text is enclosed within a black, semi-circular border that resembles a tunnel or a large letter 'D'. The word 'CONFERENCE' is written in white, sans-serif capital letters along the top inner curve of this border, and the word 'EXHIBITION' is written in white, sans-serif capital letters along the bottom inner curve.

OMAINTEC AT A GLANCE

/ OVERVIEW

Operations and Maintenance departments in the major organizations in the Arab Countries are still optimizing the most cost-effective methods to operate and maintain their facilities in order to preserve their productivity and services, and ultimately, fulfill long term goals.

The fundamentals of business management, combined with the complexity of modern machinery and equipment, and the current direction of international industries, have pushed regional businesses to adopt new technicalities within the Operations and Maintenance field in order to improve their management performance level, and face the global economic challenges.

/ LANGUAGES

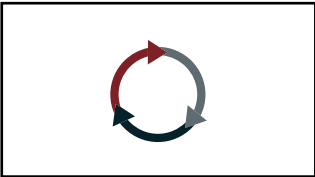

Arabic and English are the accredited languages of the conference & workshops with simultaneous interpretation from Arabic to English and vice versa in the sessions.

/ OBJECTIVES

The remarkable success of the past 14 editions of OMAINTEC (2002-2016) gave organizers, associates, and stakeholders the drive to provide a solid platform where international field experts and organizations can share and exchange their knowledge with regional policy and decision makers.

It opens the doors to key O&M operators and managers to exchange their expertise, and enrich their knowledge about newly applied techniques that improve the effectiveness of their maintenance & operations management strategies, and work plans.

Consequently, OMAINTEC in its 15th edition's main objective is to continue its mission in providing & highlighting:

The latest international effective-benchmarks, methodologies & strategies applied in the O&M fields

The case studies and hands-on experience in the field of operations & maintenance

The effective ways to overcome problems

The post conference cooperation among participants

WHO SHOULD ATTEND?

Ministries of Power & Energy, Water & Desalination

Ministries of Planning & Public Works

Governmental Decision Makers & Officials

Official Development Authorities

International Organizations

Heads of O&M Divisions

Petrol Companies, Gas & Petrochemical

Investment Banks & Financial Consulting Firms

Tourism & Entertainment Facilities & Hotels

Real Estate Developers & Residential Cities

Tele-Communication Operators

Operations & Maintenance Contractors

Managing Directors

Contracts Managers

Engineers, Consultants & Field-Experts

Airport, Ports, Railways Management & Operations Companies

Research Centers

Universities & Educational Facilities

Health Facilities & Hospitals

CONFERENCE REGISTRATION

/ REGISTRATION FEES

Registration Fees are \$1200 (Twelve hundred USD), this includes attending all the sessions, the workshops, social events, lunches, coffee breaks & receiving the conference proceedings, in addition to the conference & the workshops certificates. The registration will be confirmed upon receiving the participation form and the relevant payment. Fees are also inclusive of a one year membership fees in the Arab Institute of Operations & Maintenance (OMAINTEC Institute).

/ PROGRAM

OMAINTEC will gather speakers from the MENA, Europe, Far East, North & South America; working in both the public & the private sectors.

Those speakers are policy & decision makers, prominent practitioners & field experts in the operations & maintenance fields. Moreover, international & regional organizations will be involved to share their expertise in this field & discuss the latest developments & technologies within the operations & maintenance systems & their economic impact.

/ MARKETING OPPORTUNITIES

As an organization which is seeking to maintain its status as a cutting-edge provider and developer of innovative business and technology, you have the opportunity to maximize your market impact through:

1. Create greater market exposure and awareness.
2. Approach targeted audience to promote your corporate image, products and services.
3. Stand out as a leader in the regional operation and maintenance industry

For more information, contact the organizers at info@omaintec.com

TRACKS & TOPICS

1. OPERATIONS & MAINTENANCE OF ELECTRICITY FACILITIES

- Power Production & Transmission
- Distribution, Sub-Stations & Switch Gears

2. OPERATIONS & MAINTENANCE OF DESALINATION PLANTS

- Economics of the operations of desalination plants
- Cost effective maintenance
- Rehabilitation of water pipelines and pumping stations
- Rehabilitation of desalination plants
- Sewage treatment plants

3. BUILDING MAINTENANCE

- Large Building Complexes
- Health Facilities & Medical Equipment
- Education Facilities
- Hotels & Tourism Facilities

4. TRANSPORTATION & MUNICIPAL FACILITIES

- Operations & Maintenance of Pavements & Bridges
- Operations & Maintenance of Airports
- Operations & Maintenance of Ports
- Operations & Maintenance of Railways
- Operations & Maintenance of Service Sectors, Municipalities & Gardens

5. TELECOMMUNICATION & ELECTRONIC SYSTEMS

- Communication Systems, Computer & Networks
- Automation & Control Systems: Bms

6. MANAGEMENT OF MAINTENANCE MATERIAL

- Provision of Spare Parts Purchasing and Supply Management
- Local Manufacturing of Spare Parts
- Stock Control Systems

7. CONSULTANCY IN MAINTENANCE WORK

- Consultancy Methodologies
- Maintenance Auditing

8. CYBER SECURITY & MAINTENANCE

9. MEDICAL FACILITIES OPERATIONS AND MAINTENANCE

10. ASSET & FACILITY MANAGEMENT

PANEL DISCUSSIONS & SESSIONS

/ PANEL DISCUSSIONS

1. The Role of Assets and Facilities Management in the Public Facilities in Reducing the Government Spending on Operations and Maintenance Projects.
2. Reducing the Operations and Maintenance Costs in Water and Desalination Facilities by Privatization.
3. The Experience of the National Grid Electric Company in Assets Management.. The Method and Requirements.

/ CONFERENCE SESSIONS

1. The Researches and Studies in Maintenance.
2. Buildings Maintenance.
3. Electric Power Systems Maintenance.
4. Information Security and Protection in Operations and Maintenance Systems.
5. Preparing Future Leaders of Maintenance.
6. Education and Training in Maintenance.
7. Smart Systems to Manage Operations and Maintenance.

INTERNATIONAL & REGIONAL EXPERIENCES

1. International Experiences in Maintenance from Eastern Europe.
2. Regional Maintenance Experience from Kingdom of Saudi Arabia.

11TH EDITION ARAB O&M AWARD

Due to the advancement of science & technology in operations & maintenance to find measures & means for implementation in the Arab countries, the lack of an Arab standardized measures for operations & maintenance & means of executing them, & a shortage in personnel training; there were recurrent calls to establish an Institute of Operations & Maintenance to operate in the Arab region. This request had been highly recommended in all conferences & conferences covering operations & maintenance topics in the Arab region, especially in the International Operations & Maintenance Conferences in the Arab Countries (OMAINTEC) held between 2002 & 2016. The main focus in most of the previous events was on the importance of establishing a body which would handle, organize & unify all efforts in order to improve the quality of the maintenance practices in the Arab region. Due to the high need and importance of this issue, the **"Arab Institute for Operations & Maintenance"** was established in 2003 based in Beirut.

The activities of the Institute include mainly: publishing a specialized magazine on operations & maintenance & organizing an annual award ceremony in appreciation of innovative and successful domains of operations & maintenance such as the **"Arab Award for Operations & Maintenance"**, which is the first of its type in this field in the Arab World. The first Arab Award was granted in 2005 and it has been annually organized since then.

The Arab Award for Operations & Maintenance aims at:

- Supporting the right applications in executing operations & maintenance practices in the Arab region to help improve the standards of specialists & companies working in this field.
- Encouraging initiatives and creativity in both the private and public sectors.
- Highlighting & showing the new successful experiences in fortifying the importance of operations & maintenance.
- Setting the examples of individual or institutional role models in operations & maintenance.

/ AWARD COMMITTEES

All Award applications will be discussed and evaluated by special committees of engineers & specialists in the field of operations & maintenance in the Arab region. The final selection of the award winners will be chosen according to the required criteria.

/ ANNOUNCEMENT & DISTRIBUTION OF THE AWARDS

Upon receiving the final nominations from all the specialized committees, the winners will be notified by August 25, 2017, & the award distribution will take place at the honoring gala dinner for participants of the 15th International Operations & Maintenance Conference in of the Arab countries, which will be held in Hilton Habtoor Grand Hotel - Beirut, 23-25 October 2017.

/ CALL FOR PARTICIPATION

The award committee of the Arab Award opens nominations for all bodies & personnel working or specialized in operations & maintenance in the Arab region. Those interested should fill out the nomination form and send it BEFORE August 1st, 2017 to the address of the award committee.
