Under the Theme: **“Smart Maintenance”** Conicide with the **15th ARAB MAINTENANCE EXHIBITION**

29 October 2017

University of Suffolk

شبكات الجيل الخامس

5G SMART SYSTEMS

The applications and ways in
which they integrate with
existing technologies

“SELF MONITORING ANALYSIS REPORTING TECHNOLOGY”

WHAT DO YOU CONSIDER TO BE SMART TECHNOLOGY?

**No coding algorithms.
No pie charts.
No diagrams.**

Just facts !!

Some history.

Where we are today.

Where are we heading ?

SMART Technology.

What we already know.

What do we want ?

Some Examples.

Will SMART technology make us smarter ?

Existing Technologies

SMART

In a Maintenance environment.

Remote Maintenance

Remote Diagnostics.

Remote Analysis.

THANK YOU ANY QUESTIONS?

شكراً لحسن استماعكم

يسعدني الأجابه علي أسئلتكم
